CHECKED:

The irrigation canal constructed in the Ferghana Valley was built in 45 days by 160,000 collective farmers from Uzbekistan and Tadzhikistan. Government machinery was put at their disposal and they were directed by engineers sent to them. The canal is 25 meters wide and 270 kms. long with scores of dams, spillways, bridges, aqueducts and other hydro-technical structures.

1952
